OceanDocs / Aquatic Commons

<http://www.oceandocs.org/>

<http://www.aquaticcommons.org/>

Accueil de OceanDocs

Publications in Marine Science in digital form, including preprints, published articles, technical reports, working papers and more.

OceanDocs is supported by the Intergovernmental Oceanographic Commission (IOC) to collect, preserve and facilitate discovery and access to all research output from members of the ocean research and observation community and specifically their Ocean Data and Information Networks (ODINs). It is one of a number of complementary thematic digital marine and aquatic repositories including the Aquatic Commons, which is supported by the International Association of Aquatic and Marine Science Libraries and Information Centers (IAMSLIC).

Welcome to Aquatic Commons

The Aquatic Commons is a thematic digital repository covering the natural marine, estuarine /brackish and fresh water environments. It includes all aspects of the science, technology, management and conservation of these environments, their organisms and resources, and the economic, sociological and legal aspects. It is complementary to OceanDocs, which is supported by the Intergovernmental Oceanographic Commission (IOC) International Oceanographic Data and Information Exchange (IODE) specifically to collect, preserve and facilitate access to all research output from members of their Ocean Data and Information Networks (ODINs). Usage Statistics

Usage statistics of the repository.

Aquatic Commons supports OAI 2.0 with a base URL of <http://aquaticcommons.org/cgi/oa12>

IODE Aquatic Commons is hosted and maintained by the UNESCOIOC project office for IODE, Oostende, Belgium.

eprints

Repository- Objectives

- **OceanDocs** is supported by the of **Intergovernmental Oceanographic Commission (IOC)/IODE** to collect, preserve and facilitate discovery and access to all research output from members of the ocean research and observation community and specifically their **Ocean Data and Information Networks (ODINS)**.
- **Aquatic Commons** is supported by **(IAMSLIC)** as thematic digital repository covering the natural marine, estuarine /brackish and fresh water environments . It includes all aspects of the science, technology, management and conservation of these environments, their organisms and resources, and the economic, sociological and legal aspects.

Repository-Organizations

Intergovernmental Oceanographic Commission of UNESCO
International Oceanographic Data and Information Exchange

IODE - IAMSLIC

- **Similar Focus and Goals**

- Subject matter
- Capacity building Regional: Africa, Latin America, Small Islands and Pacific and future development
- Training
- Products and Services for marine and aquatic information
- Mentoring
- Information, **open access**, ocean and science literacy for all

OceanDocs & Aquatic Commons Comparison - Similarities

- Two complementary repositories
- Both provide visibility, usage and impact through global access to digital publications from worldwide marine (OD) and freshwater (AC) organizations that do NOT have access to an institutional repository of their own.

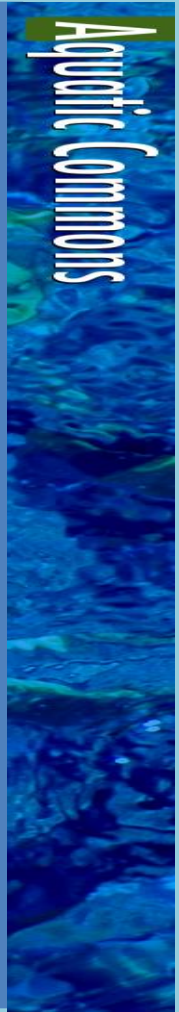

OceanDocs & Aquatic Commons

Comparison - Similarities

Open Access repositories
Open Source Software
Thematic repositories
Marine and Aquatic Sciences
Global, multi-institutional
Accept full text only
Document/Metadata profiles
Indexed by search engines
Harvested by Google Scholar, ASFA etc
Secure permanent storage (IODE)
Users's Guide and Tools

OceanDocs & Aquatic Commons

Comparison - Differences

OceanDocs (IODE)

- 2 part Registration – identify/set up Community(s) and Collection(s) before you can deposit

-
- Formatted to use as your own branded, Institutional Repository
 - Administrator (total control) for your organization community and collections – assigned

----Changing:

- Limited Freshwater coverage (lakes)
- Import/Export functions

Aquatic Commons (IAMSLIC / IODE)

- Registration with immediate deposit

Deposit without linking to an organization

-
- Freshwater coverage
 - Export/Import options

OceanDocs & Aquatic Commons

Comparison - Differences

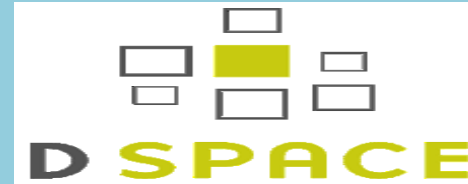

- OceanDocs (IODE)
- Search by
 - issue date
 - Authors
 - Title
 - Subject
- Aquatic Commons (IAMSLIC /IODE)
- Search by
 - Year
 - Subject
 - Issuing agency

OceanDocs and Aquatic Commons

Comparison - Differences

- OceanDocs – using Dspace 5 <http://www.dspace.org/>

- Aquatic Commons – using EPrints software <http://www.eprints.org/>
